

SURAJ CYRIAC JES

Full Stack MERN Developer

+91 9072831678 • surajcyriacjes@gmail.com • Kerala, India • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Results driven Full Stack MERN Developer with hands on experience building and shipping production grade web and mobile applications. Proven track record of converting Figma designs into pixel perfect, responsive UIs and integrating RESTful APIs in live client environments. Experienced with React, React Native, Node.js, Express.js, and MongoDB from frontend components to backend architecture. Delivered measurable performance improvements (25% page load reduction, 20% faster API response times) in real world deployments. Seeking a full time role to build impactful, scalable products.

TECHNICAL SKILLS

Frontend: React.js, React Native, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap

Backend: Node.js, Express.js, Firebase (Auth + Firestore), REST API Design & Integration

Database: MongoDB, Mongoose, JSON Server

Tools & Workflow: Git, GitHub, Postman, Figma, VS Code

Core Competencies: Responsive Design, Component Architecture, Authentication, CRUD, Performance Optimization

PROFESSIONAL EXPERIENCE

Full Stack React Developer | UnaireSync

Feb 2025 – Nov 2025

Promoted from intern to full time within the same engagement. Role concluded when company operations were paused.

- Built and maintained 3 production grade web and mobile applications using React, React Native, Tailwind CSS, Node.js, and MongoDB.
- reduced page load time by ~25%.** Converted Figma designs into pixel perfect, responsive React components
- Developed React Native mobile features including API integration, authentication flows, and reusable components, supporting 200+ test users.
- Integrated RESTful APIs and managed frontend backend data flow, enabling dynamic, scalable functionality.
- increasing internal tool efficiency by ~15%.** Resolved critical UI/UX issues and delivered targeted feature improvements,
- Collaborated with cross functional teams using Git based workflows, code reviews, and agile sprint practices.

Full Stack Developer Intern | Luminar Technolab

Jun 2024 – Dec 2024

- Built and deployed full stack MERN applications from scratch REST APIs, authentication, and database integration.
- reducing server response times by ~20%.** Implemented CRUD operations and optimized REST API endpoints,

PROJECTS

Open Library Stack: *React, Node.js, Express.js, MongoDB*

- Full stack book management platform supporting user uploads, edit workflows, and admin review pipelines.
- Implemented CRUD operations, role based access, and a clean UI for managing a growing content library.

Real Time Chat Application Stack: *React, Tailwind CSS, Firebase Auth, Firestore*

- Built a real time messaging app with Google Sign In authentication and live Firestore backed message syncing.
- Designed reusable chat UI components with instant updates and responsive mobile first layout.

Weather Dashboard Stack: *React, Material UI, OpenWeatherMap API*

- Developed an interactive weather dashboard fetching live data via OpenWeatherMap API with clean data visualization.

Employee Management System Stack: *React, Node.js, JSON Server*

- Built an admin panel with full CRUD operations for employee records search, filter, add, edit, and delete.

EDUCATION

Bachelor of Computer Applications (BCA)

BVM Holy Cross College, Cherpunkal , Mahatma Gandhi University, Kerala
